Professional Summary

Frontend Developer with 4+ years of experience specializing in React.js and modern JavaScript frameworks. Skilled in building scalable, high-performance web applications using React, Material UI, and REST APIs. Strong understanding of component-based architecture, state management, and performance optimization. Experienced in Agile environments and delivering user-centric solutions.

Technical Skills

Programming Languages: JavaScript (ES6+), C, C++, PHP

Frontend: React.js, HTML, CSS, Bootstrap, jQuery

UI Libraries: Material UI (MUI), Vuetify

State Management: Vuex, Pinia, Redux (Basic), Context API

Backend: Node.js, REST API Development

Databases: MySQL, MongoDB

Testing: Jest

Tools: Git, GitHub, Jira, Visual Studio Code

Operating Systems: Linux (Ubuntu), Windows

Professional Experience

Frontend Developer (Vue.js / React.js) Consark.ai, Bangalore Oct 2022 – Present

- Developed scalable frontend applications using Vue.js and React.js
- Built reusable and optimized UI components for better performance
- Integrated REST APIs and handled asynchronous data efficiently
- Improved application performance by optimizing rendering and reducing load time
- Collaborated with backend teams and stakeholders in Agile environment

Web Designer and Developer Pudding AppTechnologies, Chennai Oct 2019 – Feb 2021

- Designed responsive web interfaces using HTML, CSS, and JavaScript
- Worked on UI enhancements and improved user experience
- Delivered multiple projects with clean and maintainable code

Web Designer and Developer

iGenuine Soft Solutions, Chennai

Jun 2018 – Jul 2019

- Developed interactive UI components and web pages
- Collaborated with team members to improve application usability

Production Agent Zealous Customer Service, Chennai Feb 2017 – Apr 2018

- Managed US clients and ensured smooth project operations

Projects

Project Commentary and Reporting System

Tech Stack: React.js, Material UI (MUI), Node.js, MySQL, Jest, REST APIs

- Developed a scalable React.js application for project analysis and commentary
- Built reusable components using Material UI for consistent UI design
- Implemented REST APIs using Node.js for managing application data
- Used MySQL for efficient data storage and retrieval
- Added unit testing using Jest to improve code quality and reliability
- Enabled users to generate insights and analyze project performance

Financial Close Management System

Tech Stack: Vue.js, Vuetify, Node.js, MongoDB, REST APIs

- Developed a financial system to automate accounting and reconciliation processes
- Built dynamic dashboards and UI components using Vue.js
- Integrated backend APIs and managed financial data efficiently
- Improved workflow efficiency and reduced manual effort

Education

B.E. Computer Science Engineering

PPG Institute of Technology, Coimbatore

2016

HSC & SSLC

Government Higher Secondary School
